1	0	Both of those	1	0	In which department?
2	_	I don't know what to call it.			Training.
3	Q				Okay. Who would you be training in that role?
4		The first one of course is to try and not to talk			Customers.
5		over each other, which I just did, for the benefit			Okay. Not Epic employees?
6		of the court reporter, to make sure that you give			Also Epic employees.
7		verbal answers, a yes or no, and to answer all			Okay. At about what time frame were you a
8		questions to the best of your knowledge. And if I	8		trainer?
9		ask a question that is unclear to you, please ask	9	A	September '03 to November '05. No, not quite
10		me to clarify, because if you do answer a	10		right. Sorry. January '03 to September '05.
11		question, then, I can assume that you've	11	Q	Okay. Was your previous employment also at Epic?
12		understood what I was asking for.			Yes.
13		Does that all make sense?			And in what position?
		Yes.			Implementation, in the clarity department.
15		Great. And have you taken any medication today		Q	So similar to the current implementers who would
16		that would stop you from being able to testify	16		go out and implement Epic software for customers?
17		clearly?			Similar.
18		No. Okay. The cough drops aren't going to		_	Okay. Can you just describe the difference?
	_	No.	20	A	My main duties were writing reports for customers, not installing the software.
		cause a problem? Good.		$\circ$	Okay. Was your previous employment also Epic?
22		All right. Anything else that might hinder			No.
23		your ability to testify today?		Q	
		No.		_	Trizetto, in Colorado.
		Okay. All right. Let's start with just a little			What time frame?
	_	, ,		_

Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way.  Job changes. Those are the ones I can think of
2 () 3 4 5 A 6 () 7 8 9 10 11 A	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit?  Repeat the question.  I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question.	2 3 4 5 6 7 8 9 10	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate? Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way.  Job changes. Those are the ones I can think of now.
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 ()	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit? Repeat the question. I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question. All right. I'm going to get started on topic 4	2 3 4 5 6 7 8 9 10 11	Q A Q	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way.  Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 ()	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit? Repeat the question. I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question. All right. I'm going to get started on topic 4 about payroll software, if you want to take a look	2 3 4 5 6 7 8 9 10 11 12 13	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate? Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over? My salary history. So pay raises along the way. Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit?  Repeat the question.  I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question.  All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.	2 3 4 5 6 7 8 9 10 11 12 13	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate? Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over? My salary history. So pay raises along the way. Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14 15	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit?  Repeat the question.  I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question.  All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.  So this topic is on Epic's payroll software	2 3 4 5 6 7 8 9 10 11 12 13 14	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way. Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify
2 ( 3 4 5 A 6 ( 7 8 9 10 11 A 12 ( 13 14 15 16	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit? Repeat the question. I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question. All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.  So this topic is on Epic's payroll software and record maintenance system. And what is your	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way.  Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify the date range for the temporal scope for
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14 15 16 17	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit? Repeat the question. I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question. All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.  So this topic is on Epic's payroll software and record maintenance system. And what is your basis for being able to speak to this topic?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way.  Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify the date range for the temporal scope for this, the subjects of this is, what,
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14 15 16 17 18 A	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit?  Repeat the question.  I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question.  All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.  So this topic is on Epic's payroll software and record maintenance system. And what is your basis for being able to speak to this topic?  Can you clarify what you mean by basis?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way.  Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify the date range for the temporal scope for this, the subjects of this is, what,  February 2012 through April 2014?
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14 15 16 17 18 A 19 ()	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit?  Repeat the question.  I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question.  All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.  So this topic is on Epic's payroll software and record maintenance system. And what is your basis for being able to speak to this topic?  Can you clarify what you mean by basis?  What personal knowledge do you have, knowledge do	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way.  Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify the date range for the temporal scope for this, the subjects of this is, what,  February 2012 through April 2014?  MS. MADDEN: Correct. Yes.
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14 15 16 17 18 A 19 () 20	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit?  Repeat the question.  I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question.  All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.  So this topic is on Epic's payroll software and record maintenance system. And what is your basis for being able to speak to this topic?  Can you clarify what you mean by basis?  What personal knowledge do you have, knowledge do you have that allows you to speak on this topic?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q A Q A	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way. Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify the date range for the temporal scope for this, the subjects of this is, what, February 2012 through April 2014?  MS. MADDEN: Correct. Yes.  So for that time period, what types of data was
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14 15 16 17 18 A 19 () 20 21 A	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit? Repeat the question. I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question. All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.  So this topic is on Epic's payroll software and record maintenance system. And what is your basis for being able to speak to this topic? Can you clarify what you mean by basis? What personal knowledge do you have, knowledge do you have that allows you to speak on this topic? Familiarity from the last lawsuit that went	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q A Q Q	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over? My salary history. So pay raises along the way. Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify the date range for the temporal scope for this, the subjects of this is, what, February 2012 through April 2014?  MS. MADDEN: Correct. Yes. So for that time period, what types of data was entered into the Ultimate system?
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14 15 16 17 18 A 19 () 20 21 A	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit? Repeat the question. I'll ask it a little better. Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit? No. I think I understood the question. All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice. So this topic is on Epic's payroll software and record maintenance system. And what is your basis for being able to speak to this topic? Can you clarify what you mean by basis? What personal knowledge do you have, knowledge do you have that allows you to speak on this topic? What personal knowledge do you have, knowledge do you have that allows you to speak on this topic?  Familiarity from the last lawsuit that went through and talking with Kathy Hendrickson.  What system does Epic use for its payroll?  It's a third-party system called Ultimate	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q A Q Q	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way.  Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify the date range for the temporal scope for this, the subjects of this is, what,  February 2012 through April 2014?  MS. MADDEN: Correct. Yes.  So for that time period, what types of data was entered into the Ultimate system?  Since it started in January 2013, it includes your pay information per pay period, which for us is monthly. So it would have your 401(k), your
2 () 3 4 5 A 6 () 7 8 9 10 11 A 12 () 13 14 15 16 17 18 A 19 () 20 21 A 22 23 ()	so I was not aware of it.  Outside of the preparation for this deposition that we've just discussed, is there any other work you have done specifically for this lawsuit?  Repeat the question.  I'll ask it a little better.  Anything outside of your normal duties for Epic that you have done, in terms of perhaps creating reports, talking to people, for this lawsuit?  No. I think I understood the question.  All right. I'm going to get started on topic 4 about payroll software, if you want to take a look at the notice.  So this topic is on Epic's payroll software and record maintenance system. And what is your basis for being able to speak to this topic?  Can you clarify what you mean by basis?  What personal knowledge do you have, knowledge do you have that allows you to speak on this topic?  Familiarity from the last lawsuit that went through and talking with Kathy Hendrickson.  What system does Epic use for its payroll?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q A Q Q	data that had been entered into the Great Plains software has been migrated into Ultimate?  Some of the data.  What data has not? I can't answer if it was all. That's too absolute. But I know some of the data was pulled over.  Okay. What data do you know was pulled over?  My salary history. So pay raises along the way. Job changes. Those are the ones I can think of now.  What sort of I should back up. What kinds of information is stored currently in the Ultimate system?  MR. CARLE: I just want to clarify the date range for the temporal scope for this, the subjects of this is, what, February 2012 through April 2014?  MS. MADDEN: Correct. Yes. So for that time period, what types of data was entered into the Ultimate system? Since it started in January 2013, it includes your pay information per pay period, which for us is

**Epic Systems Corporation** February 25, 2016 Page 19 Page 17 1 what's on a normal paycheck. It would have your 1 Q Okay. What system would you need to use to get 2 pay changes, for lack of better term, your raises, that type of information? along the time, what date that happened. Your 3 A You would also need Great Plains, the data from 3 4 role changes, if you changed roles, would be in 4 Great Plains. 5 Q Even if it was just January 2013 going forward? there as well. A I'm sorry if I missed that you clarified a date. 6 Q Bonuses or any other kinds of incentive payment, 7 would they be in Ultimate? So can we ask the original question again? 8 A Yes, your bonuses. We have a program 8 Q Sure. If you just started on January 2013 going Stock Appreciation Rights. Those paychecks would to the present -- or to April 2014, the scope of 9 9 be in there as well -- or checks, not paychecks. this case, in that period, could you run such a 10 10 11 It has basic demographic information, name, 11 report getting the payroll history for a tech address, pieces like that. writer out of Ultimate? 12 12 So because the time period for this lawsuit spans 13 A Yes. 13 O that switch of software, payroll software, do you 14 Q Okay. And if you wanted to get a similar history 14 know if the current system would have records going back to say 2012, what would you need to do 15 15 preceding January 2013 showing the salary history in addition to get that information? 16 16 and bonuses and payroll history? You would pull that data from Great Plains. 17 18 MR. CARLE: Objection. I think Q Okay. But that's something that can be done? that misstates his prior testimony. What can be done? 19 20 A I'm going to have to ask you to rephrase that 20 O Pull the data from Great Plains? question, please. 21 A Yes. 21 Sure. You just said that right now the Ultimate **22 Q** How would you go about doing that? 22 system keeps information about salary history, the 23 A That data is stored in a SQL database, so we would 23 payroll, paychecks that people get, it includes have someone run a query against that report -- or 24 24 25 bonuses and incentive payments and things along 25 against that data. Page 18 Page 20 those lines. And I'm wondering what of that type 1 of information would not be found -- would not be data goes for the Great Plains data? 2 found if you looked back pre-January 2013? I'm 3 з A No. 4 just trying to understand if there's anything of 4 Q Okay. Do you know if it would cover the scope of

- those categories that would have been lost since 5
- the transition to the new system.
- 7 A Uh-huh. As I understand it, the actual paychecks
- 8 themselves, the monthly pay amounts are not in
- 9 Ultimate but are in the Great Plains data still.
- 10 Q When you say they're in the Great Plains data, is
- that data that Epic still has access to somehow? 11
- 12 A Correct.
- 13 Q But it does not appear in the Ultimate?
- 14 A As I understand, yes.
- 15 Q Okay. So if I wanted to run a report -- well,
- we'll start simply. If you wanted to run a report 16
- for a single tech writer and determine what their 17
- payroll history had been starting January 2013, is 18
- that something that you could do through Ultimate? 19
- 20 A Can you clarify payroll history?
- 21 Q Sure. Just their monthly paychecks that they
- received and any bonuses and other payments they 22
- 23 received from Epic.
- 24 A I do not believe you could get that detail just
- out of Ultimate. 25

- 1 Q And again, you're not quite sure how far back that
- 5 this lawsuit, so go back to February 2012?
- Α
- 7 Q You do know that it would?
- 8 A Yes.
- 9 Q Okay. So I had asked you about running a report
- for a single technical writer. Could you also 10
- query against SQL to run a report for all 11
- 12 technical writers? And I'll start with using the
- 13 Great Plains software. So all people in that job
- position for a specified time period. 14
- 15 A Which report are we running?
- Q Through Great Plains, to get their payroll 16
- 17 history.
- 18 A So, yes, you could choose multiple people.
- **19** O How?
- 20 A SQL query. So add more people to the clause of 21 who you want to pull data for.
- Would you need the list of names to do that, or 22 ()
- 23 could you do it by the job title?
- You could do it by job title.
- 25 Q Okay. So you could put in technical writer, if

Page 21 Page 23 1 that's the term used in SQL, and pull everyone who 1 format? had that job title in the Great Plains software 2 A Yes. 2 and run that payroll report? 3 Q Would it automatically be that way, or would you 3 4 A For the period at which they were called a tech 4 have to do some type of conversion? A We could make it comma separated, which then could writer, yes. 6 Q Can you clarify what you mean by that? be imported into Excel. 6 7 A People change roles. 7 Q Okay. And how difficult would that be to do? 8 Q Okay. A Wouldn't add much to the process. 9 A So the data is tracked, so it said when were they Q Okay. Are there any other systems that Epic has a tech writer and when were they not a tech used during this time period we're discussing, 10 10 11 writer. So we could pull the period for which 11 February 2012 to April 2014, in which payroll they were a tech writer. information was stored? 12 12 13 Q Okay. That's a good clarification. So if you had 13 A Not that I'm aware of. an individual who started as a tech writer and 14 Q Okay. Just these two. 14 then switched to a QAer, only the data for which Okay. I'm going to actually jump on to 15 15 they were a tech writer would be pulled in that topic 6, which is discussing human resources 16 16 query you just described? 17 software and record maintenance systems. Can you 17 18 A We could write the query such that that happened. 18 list what HR systems Epic uses right now to keep information about its employees? Yes. 19 19 20 Q Okay. How long do you think it would take to run 20 A I'm going to have to ask you to clarify human a report like that for all technical writers? resources systems. That's a little bit broad. So 21 21 22 A For all technical writers? During that time if you could specify what type of data maybe 22 period? you're looking for. 23 23 24 Q Correct, the Great Plains time period. Sure. Information like dates of employment, O 24 25 A I do not know. Hour, two. 25 salary, managers, that people held, the job titles Page 22 Page 24 1 Q Okay. Have you been asked to run any report like that they held, perhaps any hiring information that? that Epic might maintain for people. 2 A Okay. So we talked about salary. з A No. 3 4 Q Do you know if anyone at Epic has been? 4 Q Uh-huh. A That's in the payroll system. 5 A No. 6 Q Okav. 6 Q Okay. Same type of query but for the Dates of hire, roles, managers, that type of 7 Ultimate Software. Could you -- well, first off, 7 Α is Ultimate also a SOL database, or is it 8 8 information is stored in a homegrown system. We 9 something else? 9 call it Guru. 10 A Ultimate is hosted by Ultimate. So I do not know 10 Q Okay. 11 A Back-end is a SQL database. the exact back-end, but we can get to the data 11 12 similarly. 12 Q What other types of information are found in Guru? 13 Q So you could also run a report for all technical 13 A Related to HR, it's when they were hired, things writers or people holding that -- for when they like what office they had, phone number, who they 14 14 15 held the title technical writer, starting reported to, what role they had, vacation, sick, 15 January 2013 to April 2014, and get their payroll trips they took, things along those lines. 16 16 history? **17** Q Okay. 17 Yes. **18** A I'm trying to think of more. Yeah. 18 A 19 Q And do you also estimate that would maybe take a 19 O And salary information you said would be in there? 20 couple of hours? 20 A Not in Guru. Salary is in the payroll systems 21 A Yes. 21 that we've previously discussed. 22 Q Okay. So we've discussed these reports that you 22 O Okay. Bonuses? 23 could run from Ultimate and from Great Plains, and 23 A No. what I didn't ask was what format that report 24 Q Would be just in Ultimate or Great Plaines? 24 would end up in. Could you get it in an Excel 25 A Correct. 25

Page 25 Page 27 1 Q Okay. And how is that information in Guru get there. historically stored? Could you look back at an 2 Q Okay. What about -- so what about application individual employee's entire record of that materials from people who applied to work at Epic, 3 information? would they be found in Taleo? A What type of application materials? 5 A That information is not purged. So yes. 5 6 Q Okay. Ever? It's never purged? O Start with an initial application to Epic, 7 A As far as I'm aware, it's never purged. 7 whatever that looks like. 8 Q Okay. And I can't recall now if you specified, A I do not know if that was stored in Taleo or but would interview materials be something that within our -- an internal system somewhere. 9 you would find in Guru? 10 Q Is there an internal system that you can think of 10 11 A Not in Guru. 11 that might contain that information? **12 O** Where would that be? 12 A Not off the top of my head, no, for where we kept 13 A Which time period? applications. 13 14 Q Well, we'll start with the present. I know that's 14 Q Do you know if they are maintained -- if they are not quite in the scope of this, but then we can kept by Epic? 15 15 perhaps work back and figure out the changes in 16 A Yes. They are kept. 16 17 Q Okay. You're just not sure where? the systems. 17 18 A Okay. Interview material and that type of 18 A Correct. information is within a program we call Avature, **19** O Who would know? 19 20 cloud-based system owned by Avature. 20 A We would have to ask someone from HR to get that 21 Q And how long -- when did Epic start using Avature specifically. 21 for that information? Q Okay. Can you name a person in HR who -- who 22 22 would you go to if you needed to find the answer 23 A I know -- it's either August of '14 or August of 23 '15. Either way, it was outside the scope of this to this question? 24 24 25 case. 25 A Zach Lamers. Page 26 Page 28 1 Q Yes. Okay. So prior to Avature, what was being 1 Q Who's one of the people I think you said you spoke used? 2 to? 3 A A different cloud-based system, Taleo. 3 A Correct. 4 Q Can you spell that? 4 Q Okay. So this Taleo information, job 5 A T-a-l-e-o. requisitions, job descriptions, job postings, 5 again, is there historical data kept in this, or 6 Q And that's also a third-party system, or is that 6 something Epic developed? 7 is this something where if you come up with -- if Epic comes up with a new description for a job, it 8 A Third-party system. 8 **9** Q Okay. And what kind of information -- or what 9 would replace the old description? time period was Taleo used? MR. CARLE: Objection to the form 10 10 11 A Why can't I remember dates today. It was through of the question. 11 12 the course of this, once, I want to say, we 12 A As I understand it, we keep the historical 13 started it in '11 until when we switched to 13 information, the job descriptions as they change 14 14 15 Q Okay. What sorts of information would be stored 15 Q And how far back would that -- would that just be for the life of Taleo that you would have that 16 in Taleo? 16 17 A Job requisitions, job descriptions, job postings, information? 17 that type of information. **18** A Correct, from May -- or whenever, 2011 forward. 18 19 O What's job requisitions? 19 O Okay. What if you wanted to see what a job description was prior to 2011; would there be a 20 A As I understand the term to mean, it's the process 20 for having a job basically approved or authorized. 21 way to access that information? 21

sort of situation?

23

24

22 Q So a manager may say I need more people in this

25 A I do not know how the process actually works to

area, and they would make a job requisition, that

24

25

22 A I do not know.

system?

23 Q So after Epic stopped using Taleo, what happened

to all of the information that was stored in that

Page 29 Page 31 1 A We got a dump file of all of our data that was in 1 understand. So if you're looking for an employee, Taleo, and we have that information at Epic. 2 you could find the employee name, but then, how 3 O How is it stored; is it on a tape? does that connect to other information to find out 3 4 A It's on a server in an Oracle database. 4 answers they gave to questions, where their 5 Q So how would you go about getting information off application is. That would be in different 5 of that database? tables, so how do I connect all these tables 6 7 A It is a difficult process because we do not know 7 together to get their information into an employee the data model used to store that information. So record is what we don't understand -we would have to dig through all the tables and 9 Q Okay. 9 try to figure out where information is. 10 A -- fully. 10 11 Q Can you explain a little more what you mean 11 Q So to use a very nontechnical example, you're not by data -- I think it was the data model? quite sure how to put all the pieces back together 12 12 So Taleo is a -- if you go to a website, and you because you don't know where each piece of say an 13 A 13 enter information, it gets stored in a back-end employee application would be found? 14 14 15 database, which is made up of many tables. We 15 A Correct. don't know -- there's a lot of tables. We don't Q So given someone with a lot of time on their 16 16 hands, they could identify where each piece is and 17 know their relationship between all of those 17 18 tables to be able to find exact information. 18 figure out what query to write to put those pieces 19 Q Is this database something you could search? For back together? 19 example, could you search a term to discover a 20 20 MR. CARLE: Objection. Calls for bunch of documents that had that term in it? speculation. 21 21 MR. CARLE: Objection. A Someone with time could assemble parts of it --22 22 I'd never say the whole thing -- and understand 23 A It is a database, so you could write queries 23 against it, if you knew where to look for that 24 24 25 term. 25 Q Okay. So if you wanted to pull -- if someone Page 30 Page 32 1 Q What do you mean if you knew where to look for the wanted to find out what the job description was 1 term? So you couldn't query against the entire for a technical writer in 2012, are you saying 2 database; is that what you mean? 3 that they wouldn't be able to unless somebody took 3 4 A Correct. You can't write a query that just says 4 the time to dig through this database? go to everything and find the word Epic, across 5 5 A Correct. this whole thing. O There's nowhere else where that information would 6

7 Q So is this dump file, is it broken down in any

way, or is it just every single piece of 8

9 information that was in Taleo is just in a giant

morass? 10

11 A It's in many Oracle tables.

12 Q Okay?

13 A So there is structure to it. We just don't

understand the structure. 14

15 Q Could you learn what the structure is?

16 A Someone with time could sit down and figure it

17 out. Yes.

18 O So when you talk about these structures, I mean,

do they have titles, do they have -- or I guess, I 19

20 don't understand exactly how it would look if you

tried to open this up. 21

22 A The tables would have names. The columns would

have names or labels. But understanding exactly 23

what's stored in that information, and then how to 24

connect it to other tables, we don't fully 25

7 be maintained?

8 A Correct.

9 () One system that I think got discussed previously

is called Insight, that Epic uses for some HR

information. Are you familiar with that system? 11

12 A Yes.

10

13 Q And what types of information are stored within

14

15 A Insight is more of a front-end that pulls data

from multiple different back-end systems. 16

Specific to Insight -- and it also has some data 17

specific to it. Insight is also a homegrown 18

system on SQL. So some of the information would 19

20 be what we call POGIs, poor, okay, good,

impressive. It's a system we use to rank fellow 21

employees. So that is stored within Insight. 22

I'm trying to think what else is in Insight 23 versus data just pulls from other places. 24

Ranking information. So as team leads, we

25

1 A It is a SQL database, so we can run reports

against it. Yes.

Page 35

Page 36

Page 33 1 rank our employees based on a scale. So that 2 information is in Insight. That's the information I can remember right now that's specific to 3 Insight. 5 Q Okay. What systems does Insight pull from? 6 A It pulls information from some of the hiring systems. It pulls information from time log. Those are the main ones I can think of now. 8 Q And what hiring systems would that be, Avature and Taleo, or are there others? 10 11 A I don't know exactly the front-end from which they pull, but it pulls things like test scores. Those 12 are the big hiring pieces that it pulls in from, 13 the hiring process. 14 15 Q Would it pull information like an applicant's GPA or their alma mater, things like that? 16 A Not that I'm aware of. Q Okay. Would that information be in Insight? A I do not believe that information is in Insight. 20 Q Does Epic keep -- so kind of on the topic of applications, does Epic keep interview materials, 21 materials from when they interview people? 22 23 A Yes. **24** Q Where would that information be kept? 25 A That's where I'm not sure where all that's kept. Page 34 Some of it's in SQL databases, from the hiring 1 process. I don't know if there's still paper 2 forms that are kept. 3 4 O Who would know where that information is? 5 A I would go to Zach again. 6 Q Okay. Do you know if Epic keeps those sorts of records for people it does not hire? 8 A Yes. It does. **9** Q Do you know if there's a time frame for how long they keep those records? 10 11 A Yes. **12** O What is that time frame? 13 A As I understand it, it's at least seven years. 14 Q Okay. But again, but you wouldn't know where any 15 of that's stored, we would have to ask Zach? 16 A Correct. 17 Q I think I previously asked about where manager names, if they would be kept in any of these 18 systems, like a record of the people who had 19 20 managed an individual technical writer. Which of these systems that we've talked about would keep 21 that information? 22

24 Q Okay. So with Guru, is that a system that you can

run -- could you run reports from that system?

Okay. Have you ever used the database to run a 3 O 4 report from Guru? A Yes. 5 Q What types of reports have you run? 7 A In my role, previous role, Guru also contains purchasing request information. So there's a lot 8 of data not related to individuals that way. I've 9 run reports the number of employees active at a 10 11 certain time for planning purposes. Those are the reports I mainly ran out of Guru myself. 12 13 O Would you be able to run a report of, if you wrote the right query, that would pull out all technical 14 writers and the names of all of the people who had 15 managed those technical writers? 16 17 A Yes. **18** Q And I don't think I asked this, but how long has Epic maintained the Guru system? 19 20 A It's going back ten years at least. Q Okay. And again, is that something that gets 21 purged at any time, or would it be -- would it 22 have all that historical data in it? 23 24 A It would have all the historical data. **25** O Okay.

All right. You said Insight also pulls

information from the time log system?

з A Yes.

2

4 Q Okay. What sorts of information get pulled into

5 Insight from the time logging system?

6 A The hours that the person logged.

**7** Q Anything else?

8 A That's all that's in time log, so.

9 Q Okay. Well, let's talk more about time log. And

I've, just for a terminology, I've also heard the

term DeLorean used when people talk about logging

time. Is that something different, or is it the

same system?

14 A It's the same system. DeLorean would be the

front-end, what people see. Time log or TLG is

the back-end database.

17 Q Okay. Understood. Well, let's start with --

let's talk about TLG, then. What types of

information gets stored in the TLG database?

20 A It's pretty limited. User ID or name, a comment

21 field, their role, the team they're on. There's

fields for what specific development log, support

log, or project they're working on, if

appropriate. What we call the TLP ID, so the codethat classifies the work. And then the number of

23 A Guru.

25

Page 37 Page 39 hours that the person is logging to that TLP. 1 some questions for you about it. 2 Q And is this the only system that's used at Epic to 2 (Witness examines document) keep time records? 3 3 A Okav. 4 A When you use absolutes, it's -- that is the main 4 Q All right. So under, on the first page, under the system we use to track our time. header Why do we have to log our time, it says --5 O Okay. Tech writers, this is the system that they it gives some reasons why Epic wants the writing 6 would use to track the time they spent performing 7 team to log their time. It talks about Helping us work? 8 determine how much time we spend doing different 8 9 A Yes. tasks. 9 10 Q They wouldn't use a time clock or anything else? Do you know who the us, are they just 10 11 A Correct. 11 speaking generally about Epic, but would you have 12 Q Okay. And how long has the TLG system been in any idea who they're talking about when they say 12 that? place? 13 14 A At least 2002. **14** A I do not know. 15 Q Okay. So it would -- and its records are 15 Q Okay. In the How do I log my time section, it maintained historically; is this something that says you log in EMCT -- 2, sorry, using DeLorean. 16 16 ever gets purged? 17 What's EMC2? 17 18 A The records are historical. Yes. **18** A EMC2 is another homegrown product. We use it for Q Okay. So they would cover the entire time period many things, tracking development logs, support 19 19 20 of this lawsuit? logs, QA notes. So this is what would be called 20 21 A Yes. an activity within EMC2. It's DeLorean to enter 21 22 O Okay. So if you are an Epic tech writer, and 22 you're entering in time, you said they would use And it would be, as you previously described, to 23 23 Q the DeLorean, that would be the front-end? enter DeLorean through EMC2? 24 24 25 A They're -- yes. You can also go to a tech 25 A Yes. Page 38 Page 40 stimulator and do it, but it's the same data. 1 Q Okay. It refers, in this section, it says, for 2 O Okay. example, if your work plans shows you worked 2 3 A For simplicity, we can just refer to DeLorean. 45 hours, all of that time should add up. 3 4 Q Okay. And how -- what would they see, when they 4 Do you know what they mean by a work plan? wanted to enter that data, what would it look like 5 A Not specific to tech writers. 5 in DeLorean? Q Would you know specific to a different position? 7 A It's a white page. It has the eight or nine 7 A To -- yeah. In the previous roles I've been in, I fields that I described. And you can enter in the would meet with my team members on a regular 8 8 9 information you need. 9 basis, weekly, bi-weekly, and with that person, I 10 Q Okay. I'm going to give you what I think is going would review what projects they are working on. 10 to be marked as Exhibit 39. And then, they would fill out a work plan, saying 11 11 12 (Exhibit No. 39 marked for 12 This is what I did last week, how many hours I 13 identification) 13 spent on each task. This is what I planned for **14** Q And is this a document you recognize? this week, how many hours I plan on spending on 14 15 A No, it is not. that work. 15 16 Q Okay. Does it appear to come from Epic's internal 16 Q Okay. And would that work plan, that document be maintained somewhere? 17 wiki? 17 Yes. A There's not a standard place to put work plans. 18 A

18 A There's not a standard place to put work plans.19 People use OneNote from Microsoft. People use

Excel spreadsheets. People use Word documents.

So they'd be scattered.

22 Q So a work plan is not a standardized document

within Epic?

24 A Correct.

25 Q Would it be something that would depend perhaps on

20

21

22

23

24

25

19 Q Okay. So at the top of this document, it says

it's time logging for writers. So I'll represent

that it was produced in this lawsuit responsive to

a request for documents about how tech writers

would log their time. And so since you haven't

seen this before, I mean, why don't you take a

moment to sort of review it, and then I've got

Page 43
the end of the month I think is outside the scope. I would ask him not to answer that.  MS. MADDEN: All right. Well, we
<ul> <li>by team leads?</li> <li>A I don't know specifically if there are reports</li> <li>available for them.</li> <li>Q Are there standard reports that you could run out</li> <li>of using that data?</li> <li>A There's some common reports that are run. Yes.</li> <li>Q What are those common reports?</li> </ul>
<ul> <li>enter, based on TLP, or for my team who reports to</li> <li>me, what did each person enter.</li> <li>Q Could you run a report for an entire department,</li> <li>for all technical writers?</li> <li>A Yes.</li> </ul>
<ul> <li>22 Q Could you determine run a report to find</li> <li>23 averages, the weekly average for a department?</li> <li>24 A Weekly average of? Of what? Sorry.</li> <li>25 Q Of the hours worked by the employees in that</li> </ul>
Page 44
<ol> <li>department.</li> <li>A Yes.</li> <li>Q Okay. Any other common reports that you know of that people run through DeLorean?</li> <li>A No.</li> <li>Q Could you run a report to see what TLPs are being used by people on a team?</li> <li>A Yes.</li> <li>Q Can you describe the process for running that report?</li> <li>A There's two ways, depending specifically what data. There's some pre-created reports that you could choose a group of people, based on your team, to show the TLPs, or since it's a SQL database, someone could create a custom report to do the same.</li> <li>Q And that report could pull the all individuals who were technical writers and every TLP that they had logged and the amount of time they logged for each TLP?</li> <li>A Yes.</li> <li>Q Okay. Do you know if anyone has ever done that?</li> <li>A Done specifically what?</li> <li>Q Looked at the TLPs that are logged by tech</li> </ol>

Page 47

Page 48

Long, D., v. **Epic Systems Corporation** Page 45 1 A I am not aware if someone ran that. 1 Q Okay. In DeLorean, would it be possible -- if an 2 Q Okay. Have you run any TLG reports for this case? employee was entering their time, but they skipped 3 A No. a field, for example, if they didn't fill out the 3 4 Q Are you aware of any such reports being run? 4 TLP, what would happen? A That field is required, so you wouldn't be able to 5 A No. 5 leave that section and move on to your next TLP. 6 O Okay. And it sounds like you're no longer in 6 charge of the team that would run these reports, 7 Q Okay. Of the fields that we talked about that are if that information was needed? 8 in DeLorean, or TLG, which fields are required? I 8 A I was never in charge of the team that would run think we talked about user ID, comments, role, 9 9 these reports. team, what project, TLP code, and the hours 10 10 11 Q Okay. What team would run these reports? 11 logged. 12 A Our division operations team. 12 A I don't know which ones are completely required. 13 O And who is in charge of that team? The TLP ID. your user ID is filled in 13 automatically. And the hours are required. Your 14 A They are scattered across a couple different 14 15 managers. So they don't report up to one single role is filled in automatically, but I don't know 15 person, that I'm aware of. I don't know their if you deleted it, if it would stop you. Your 16 16 team is filled in automatically. Again, I don't 17 full structure. 17 18 Q Okay. Who are the -- I mean, I guess, if they 18 know if you deleted that, if it would stop you. don't have one head, but who are some of the DLG, the development log, PRJ comments, those are 19 19 people in charge of that team who would run this 20 optional. 20 sort of information? 21 Q Okay. If an employee did not enter time, would 21 22 A Was the question who are the people or who are the there be some kind of report triggered by TLG that 22 would maybe alert their team lead that they hadn't managers? 23 23 **24** Q Who are the people. entered time? 24 25 A I know two of the names, Matt Gandley, 25 A There is a -- if someone does not have their time Page 46 Jacob Goergen, I think is how you pronounce his done, we get week -- I don't know for tech 1 1 last name. Brian Cap is another one. I can't writers. For me, if I do not fill in my time on a 2 2 remember any of the other names right now. 3 3 4 Q So any of those individuals would be able to run a 4 report showing all TLG entries for tech writers in the month, so around the 1st, I get an e-mail 5 the time frame of this lawsuit? 6 7 A Yes. 7 if it's not completed there, then I'm included on 8 Q I don't think I asked, but how long do you think 8 9 it would take to run a report like that? 9 to remind me to complete my time log. 10 A We would have to agree on what exactly some of the specifics are, so that would be some of the trick. 11 11 12 I don't know how hard it is to, for job changes as 12 typing you an e-mail?

weekly basis, I get an e-mail reminding me that my

time has not been logged. And then, at the end of

reminding me to fill out the previous month. And

an e-mail to my team lead, reminding my team lead

10 Q And those e-mails, are those automatically

generated, or is somebody looking at something and

13 A Those are automatically generated.

14 Q By what system?

15 A By the TLG system. I don't know the exact

process, but someone is not manually looking up 16 17

reports.

**18** Q Okay. And I believe you said you would get an e-mail each week if your time wasn't logged; was 19

20 that accurate?

21 A I get weekly e-mails reminding me to log my time.

22 O So do you mean to log your time because it hasn't

been entered, or there's just an e-mail every 23

single week saying log your time whether you've 24 done it or you haven't? 25

13 we talked about, to say tech comm only during this

time period and if they changed roles, so that 14

15 would add some tricks. A day or two would be my 16 guess.

17 Q Okay. How about to run a report showing the --

let's say for one person, if we selected 18

Dayna Long, the plaintiff, to run a report showing 19 20 the TLPs that she entered during her time at Epic?

21 A That report would not take long. A few hours at

22

Q I assume if you added more people, it would take

longer to run such a report? 24

25 A Correct.

Page 51 Page 49 1 A I do not know if there's an e-mail had I logged my key card swipes, changed in that time period? time for the entire week. 2 A Not that I'm aware of. 3 Q It's not an experience you've had? 3 Q Okay. So there aren't more doors that need key **4** A Am I still sworn? 4 card access, for example, or anything like that? 5 Q Who would know the answer to this question if 5 A No. that's an automatic process or if everyone gets Q Okay. In Nordgren, you also talked about computer that e-mail? 7 logins. Can we -- can you just go over the A I don't know. Someone from accounting. I don't procedure used at Epic to log into a company 8 8 know who would know that definitely. workstation when you're starting your workday? 9 10 A Procedure is a strong word, but when I come in, I 10 Q Okay. 11 All right. I'm going to move on from time 11 sit down at my computer, hit enter or space bar and get to the login screen and enter my user name 12 logs --12 THE WITNESS: If you're going to and password. 13 13 14 Q And is there a data recorded or a time stamp of move, can we just take a break, then --14 MS. MADDEN: We sure can. any sort recorded somewhere that you've logged 15 15 THE WITNESS: -- if it's a good onto the system? 16 16 spot? 17 A In Windows' logs, yes. 17 MS. MADDEN: Of course. Of course. Q And is that data stored on any server or backed up 18 THE WITNESS: Thanks. in any way? 19 19 20 (A recess was taken) 20 A The data is stored on a server. It is not backed By Ms. Madden: 21 21 Okay. So that's not something you could gather Q All right. Mr. Benz, we're going to turn to 22 22 topic 5, about Epic's security systems. And you historical data for? 23 23 previously testified on this topic in Nordgren. Correct. 24 24 Α 25 Q Okay. How long would that data be stored on 25 So to avoid running over too much of the same Page 50 Page 52 ground, can you just start out by telling me, I Windows? 1 know you said you had talked to Angie Brooks about A About 20 days. 2 key card data. Can you just kind of summarize 3 Q Okay. And would any record be created when -- let 3 4 about what you learned from her about Epic's 4 me back up. systems in that regard? 5 Do you need to log -- do Epic employees need 5 6 A The basic stuff as to what happens, when an 6 to log off their workstations when they're done 7 employee leaves Epic, to their data, which doors 7 performing work? are opened during the day, meaning no key card 8 A No. 8 9 access needed. And the big piece of information, 9 Q Does the system automatically lock after periods in July of 2014, we had a server crash and lost of inactivity? 10 10 all historical data, and it was not backed up. So 11 A Yes. 11 12 we have data moving August 2014 forward. 12 Q Okay. And is there any record that would be 13 Q Okay. So July -- and when you say a server 13 created when they would log off or when there crashed losing data, are you just talking about would be a period of inactivity? 14 14 key card swipes? Let me split that into two questions. 15 15 16 A There were other things on there, but key card 16 A Thank you. Q Sorry. If there was a period of inactivity and 17 swipes were lost. 17 Q Okay. So key card swipes are used to get into the computer locked, would a record be created of 18 18 some doors of Epic, correct? that? 19 19 20 A Yes. 20 A Correct. 21 Q And again, in Nordgren, we testified about whether 21 Q But it would, similarly, only be stored for that was a useful way of determining when a tech 20 days? 22 22 23 writer -- sorry -- a QAer, in that case, was 23 A Correct. performing work. 24 O Okay. And if they manually logged out, would a 24 Has anything in Epic's practice, in terms of record be created of that? 25 25

		D., v. ystems Corporation			Videotape 30(b)(6) Deposition of Brian W. Benz February 25, 2016
Eþ	IC B	Page 53			
		Fage 53			Page 55
1	A	Yes.	1		that case, but it's been represented to us by
2	Q	Same question; it would only be stored for	2		counsel that this hasn't really changed, aside
3		20 days?	3		from the revision that we'll look at in a moment.
4	A	Yes.	4		So are you familiar with this document or
5	Q	Okay. Are there any other systems at Epic aside	5		this policy?
6		from TLG that could be used to determine when a	6	A	Yes.
7		tech writer was performing work?	7	Q	Okay. So starting off with, underneath the first
8		MR. CARLE: Objection. It's vague.	8		header Network stuff, it describes backups that
9	A	Yes. Can you clarify what you mean?	9		are done nightly, weekly, monthly, and
10	Q		10		semi-annually.
11		determine when a tech writer was at physically	11		So starting with the nightly backups, what
12		at Epic?	12		well. Even farther back. What's network stuff;
13	A	We talked about key cards, talked about login.	13		what does that include?
14		There's a few cameras, but it doesn't cover the	14	A	A better term may have been stuff stored in the
15		whole campus, so that wouldn't be reliable. So	15		data center. So not laptops, desktops.
16		no.	16	_

24 Q And this is a document that was produced in the

Nordgren case. So it's Bates marked 1647 from

identification)

21

22

23

25

21

22

24

25

month.

for two years. What -- how does that differ from

the nightly or the weekly backup?

23 A A monthly backup is just a term for a weekly

backup that happens the first Saturday of the

Page 57 Page 59 1 Q Okay. So that would give you a snapshot of kind 1 Q Is there any limit to what that, talking about of what was on the server at that month, and it e-mail, is there a size limit to how many e-mails would -- but this one is stored for two years a person can -- or how large their e-mail box can 3 3 instead of the seven-day nightly storage? 4 get? 5 A That was a lot. 5 A Yes. 6 O It was convoluted. But I'm just trying to confirm 6 O What's the size limit? that the only difference in terms of content 7 A Currently, eight gigabits. between a nightly and a monthly backup is the 8 O Okav. 8 length of time for which it's stored? 9 A Bytes. 9 10 A There are -- probably are other things that are 10 Q And what happens if you hit eight? stored up monthly -- or backed up monthly but not 11 11 A You get an e-mail saying You are approaching your backed up weekly. So there could be a few things limit. Please do something. 12 that are in that case. But in most cases, you are 13 O And if what you did was delete a bunch of e-mails 13 correct, the content's the same -to get below the limit, what would happen to those 14 14 15 Q Okay. deleted e-mails, would they be preserved anywhere? 15 **16** A -- and the retention is different. 16 A Depending on the timing, based on the backup 17 Q And it says Kept offsite. Where is this -- where policy, they could be on a tape. 18 are the monthly backups stored? 18 Q When you say they could be on a tape, do you mean 19 A A company called -- oh, they've changed their one of the weekly, monthly, or semi-annual backups 19 names. Access, A-c-c-e-s-s. There's something 20 20 discussed? after that. We just call them Access. I think. 21 A Correct. 21 22 Q And how long --Q Okay. So you could go back to before they hit 22 23 A I will correct that if I remember the name better their limit and see the archived e-mails in that 23 later. record? 24 24 25 Q How long has Epic used Access to store these 25 A Yes. Page 58 Page 60 monthly backups? 1 Q If Epic -- or if you wanted to get the -- a copy 2 A On a policy, we're going back to 2005, so at least of an e-mail for a person who's left, what 2 there. 3 procedure or process would you go through to get 3 4 Q All right. And semi-annual backups, what a -- how 4 that person's e-mail box? would the content of those differ from any of the 5 A We would get a request for restore from an three other backups we talked about? executive, HR, someone like that, legal counsel. 6 7 A Those are monthly basis, taken roughly June and 7 We would track it through the system, find out December. So there would be nothing that's what tape it's on, load the tape, extract their 8 8 9 semi-annual that is not monthly. 9 file, have to import that file, and then we 10 Q Okay. And I assume that one, also, Access is usually make what's known as an Outlook archive, a 10 where that would be stored? PST file. 11 11 12 A Correct. 12 O So you would have to create the -- convert it into 13 Q The next header here is Departures. Am I correct 13 a PST, essentially? in reading that to mean what Epic keeps when 14 15 someone leaves, when an employee leaves? 15 Q Okay. And would you follow the same procedure to 16 A Yes. get the f:\personal and the profile that were 16 17 Q Okay. And so it's listed here, but can you just archived when the person left? 17 describe the documents that are kept when an 18 A Similar process, yes. 18 **19** O How would it differ? employee leaves? 19 20 A What it lists here, everybody has an f:\personal\, 20 A The result. It wouldn't be a PST file, it would Bbenz in my example. So anything that's stored in 21 just be the normal files. 21 that folder. Information that they stored on 22 Q When you say normal files, do you mean it would be 22 their workstation, with the exclusions listed. Word documents, PDFs, whatever it was when the 23 23 And then a copy of their e-mail on the Exchange individual had created the documents or saved the 24 24

Server at the time of departure.

25

25

documents?

Page 61 Page 63 1 A Yes. 1 A Correct. 2 Q How long does it take to restore a person's e-mail 2 Q Okay. I know I'm being inartful, so I appreciate box from this system? vour patience. 3 4 A It takes a day to get the tapes out of storage, 4 All right. I'll pass you I think No. 41. and then a few hours of work to restore their (Exhibit No. 41 marked for 5 files. identification) 6 7 O And that time estimate would be the same for 7 Q So this document was produced in this case, and e-mails or for the f:\personal drive and the appears to give the differences between the backup 8 profile? policy we just looked at as Exhibit 40 and the 9 10 A E-mail is a little longer. current policy. Are you familiar with the changes 10 that were made to revise the backup policy here? 11 Q Have you pulled a copy of e-mails or personal 11 drive or anything like that in regards to this 12 12 A Yes. lawsuit for any of the individuals involved? 13 Q It looks, according to the revisions history at 13 14 A I don't know all the individuals on this file. We the top, that Bbenz made the changes. Was that 14 15 received direction from counsel to restore you? 15 information for specific people. 16 A Yes. 16 17 Q So you know that that has occurred? 17 Q And what was the reasoning -- well, first off, 18 A Yes. 18 what was the change that was made? It looks like 19 Q Okay. But you can't say today what people you it was a change to line 9 of the previous backup 19 were asked to restore information or someone was 20 20 policy? asked to restore information for? 21 A It previously stated we keep departures data on 21 22 A I do not remember their names. No. tape for three months, and we changed it to on 22 23 Q Do you know if it was more than five people? tape for perpetuity. 23 **24** A Yes. **24** Q And what was the reason for making that change? 25 Q Okay. All right. So we talked about TLG data 25 A When we met in, roughly, May 2013, we came up with Page 62 Page 64 earlier. In which of these kind of categories of guidelines we would like to follow. The reality 1 backed up data would TLG data be found? is we got so many requests for restores of data 2 3 A You're referring to which -- repeat the question. that was older than three months, that we decided 3 4 Q If I wanted to get historic TLG data, would I need 4 to keep tapes for perpetuity. And so we never to go into one of these backup files in order to actually purged anything after three months. So I 5 5 do so, and if so, which category? was just updating the document to reflect 6 7 A What do you mean by category? I'm not following 7 practice. Q I see. So it would not be correct, then, to say completely. 8 8 9 Q Sorry. Would be in the -- a nightly backup, or 9 that -- well, I won't ask you to negative. would it be in f:\personal, these different kind So prior to this policy change, Epic was not 10 10 purging records after three months? of groups of archived -- of backed up information? 11 11 It would not be in f:\personal. It's stored in a 12 A Correct. 12 A 13 database. 13 Q So if I wanted a restore of a former employee's 14 O Okav. e-mail that predated this change, Epic would still 14 have it? 15 A I'm still trying to follow the question 15 completely. 16 A Correct. 16 **17** Q I'm probably asking it poorly. 17 Q Okay. Can you identify the time period when the Would it be found in the backups, like the practice changed? 18 18 semi-annual backups, since that's on the database, 19 A In my recollection, we have been keeping 19 20 is that server information that would be backed up 20 departures data as long as I can remember and not there? purging it. 21 21 22 A Yes. 22 O So at least through the duration of this lawsuit? 23 Q But you wouldn't need to do that, correct, because 23 A Yes. that historical information is accessible through 24 Q Okay. Were there any other changes, besides the 24 25 TLG? one noted here, that you can recall being made to 25

Page 65 Page 67 1 the backup policy? 1 So that's my question. Do you know which of 2 A No. 2 these categories something like a release note or 3 Q Okay. And this is the current, between document a support guide would fall under, or if it does 3 40 but with the change made on Exhibit 41, to say 4 not fall under one of those categories? that the departures data would be kept in A To the best of my knowledge, the documents that a 5 5 perpetuity, is that the current backup policy used tech writer creates would not fit into one of 6 6 by Epic? 7 these categories. 8 A To the best of my knowledge, yes. 8 Q Okay. Would they be the type of documents that 9 Q Okay. Would there be someone else who would have would be found in, for example, a monthly backup? 9 more information or different information about 10 10 A 11 O 11 that? Because they are documents that are saved on 12 A Leif Maxfield. Since I've been out of the role Epic's server? 12 four months, something may have -- or three 13 A Yes. months, something may have changed. 14 Q Okay. So let's talk a bit about that server, 14 15 Q He has taken your previous role? 15 A No. He's our backup person. If you wanted to find, for example, every 16 16 Q Okay. So I want to ask about some documents that release note written by Dayna Long, is that a 17 17 18 are specific -- documents that are created by tech 18 search that could be performed? writers and try to determine where they would be 19 A Can you define written by? 19 20 maintained. 20 Q Let's start with she created the document, so Actually, I think before I do that, I'll give 21 she -- I don't know if this is how they do it, but 21 you the next exhibit, No. 42. she opened up the new Word document and started 22 22 (Exhibit No. 42 marked for typing. So she perhaps initiated the document. 23 23 identification) 24 A Not being completely familiar with a tech writer's 24 25 Q So this was also a document produced in Nordgren 25 role, but if she created a new Word document, I'm Page 66 Page 68 that we were informed is the same, it hasn't not familiar if you can search -- there's metadata 1 1 changed since that suit. Are you familiar with 2 that tells you who created it. I'm not familiar 2 this document? 3 how easy that information is to search. 3 4 A Yes. 4 Q I'll tell you kind of where I'm coming from. In 5 Q And to your knowledge, is this the current the Nordgren case, Epic was able to identify and 5 document retention policy that is used by Epic? produce QA notes written by individuals who had 6 7 A I am not familiar with this, what's the current 7 joined the lawsuit. And so I'm kind of seeking an for this document retention policy. analogy and if it would be possible to do 8 8 **9** O Who would be able to confirm whether this is 9 something similar for documents written by the current? tech writers, in this case. 10 10 11 A On the document, it lists two names. So I would So you're saying --11 12 go to those two people. 12 MR. CARLE: I just want to object. 13 Q Okay. And that's Jeremy Nelson or 13 I think that documents is vague. Britta Lindberg, are the names I am seeing. Is MS. MADDEN: Okay. 14 14 15 that -- are those the people you're talking about? Q Well, examples that I would have are release 15 16 A Yes. notes, support guides, tip sheets, these sorts of 16 deliverables that are created by and that tech 17 Q Okay. I'm going to ask a very broad question. 17 writers work on. You have identified searching But I know that some of the types of documents 18 18 the metadata. Are you aware of any other search that -- the role of a tech writer is to create 19 19 20 various documents, like release notes, support 20 that could be used to identify the deliverables guides, tip sheets, things like that. And what created by a particular tech writer? 21 21 I'm trying to understand is that type of data, 22 A And can you redefine deliverables, so we're 22 23 whether it falls under one of the listed 23 talking the same thing? categories here or elsewhere in terms of whether Sure. Let's use a release note for an example, to 24 O 24 it's a document that's retained. find the release notes created by an individual 25 25

Page 71

created during that time period? tech writer. 2 A So what's the full question? I'm sorry, I've 2 A Yes. gotten lost now. 3 Q Okay. How long do you think it would take to retrieve, for example, all release notes created 4 Q Sure. If you wanted to find every release note that Dayna Long had written, would you be able to between 2012 and 2014? 5 do that, and how would you go about doing it? A That's a lot of data. I couldn't guess that one. Yes. You would be able to do that. That data is 7 Q Okay. What if it was just for an individual stored on a server in a database, and we could person and an individual type of deliverable, 8 search for records created by Dayna Long. could you estimate how long that would take? 9 9 10 Q And when you say it's stored on a database, are 10 A Several hours, few hours. Not more than a day. 11 you talking about the backups, or are you talking 11 Q Okay. And would this involve the same process you about a different database that you would be described for restoring e-mail, where you would 12 12 searching? need to retrieve a tape and do it that way, or is 13 13 14 A Different database. this something that's in an active database that 14 15 O What database? you could kind of skip that part of the process? 15 16 A It's a Caché database. It's referred to -- I'm 16 A The data is currently in an active database. trying to think how we can label it, just for Q And do you know how far back that database goes? 17 18 clarity. For release notes, it would be DRN, the **18** A At least 2006. 19 Q Okay. So not that I would in this case, but if I letter D, R, N. 19 wanted a 2007 release note, that is something that 20 Q So would a different type of deliverable, like a 20 tip sheet, it would have a different, for lack of would be found in this -- in active database? 21 21 a better word, code that you would use to identify 22 22 A Yes. 23 Q Okay. Has Epic -- or let me step back. 23 24 A Yes. We looked at the general document retention 24 25 Q Okay. And so, again, is this like you would run a 25 policy and the general backup policy. Does Epic Page 70 Page 72 SQL query and say We want all DRN created by have specific policies for, when it is involved in 1 litigation, for backups or retention? Dayna Long, is that the process here? 2 3 A Roughly. 3 A We have a process we follow. 4 Q Okay. Do you know if anyone has attempted to do 4 Q And is that process written; is there a written that in this case? record of what that process is? 5 6 A I am not aware of anyone doing that. A Not to my knowledge. 7 Q Okay. What if you wanted to find just all release 7 Q Okay. Can you describe the process, please? notes created in a particular time period, like A We receive an e-mail from legal, follows the lines 8 8 9 2012 to 2014, is that also something that would be 9 of We're in litigation for this time period. Then retrieved through this Caché database? we usually verify with counsel what time period we 10 10 11 A Yes. need to keep tapes for. And then, we put what's 11 **12** Q And how would you go about doing that? 12 known as a hold on those tapes, so they do not 13 A Same process, write a script, searching on the 13 fall into the purge process, if they fall out of create date, retrieve all the files, or all the the two-year period, for example, for monthlies. 14 14 data elements. 15 Q And do you know if that -- a litigation hold 15 16 Q So if you had this, again, lack of a better word, e-mail like that was sent out in this case? 16 code for the types of document you were looking 17 17 A Yes. for, you would be able to run that query to **18** O Okay. When was that e-mail sent out? 18 19 A March of -- early -- I don't remember if it was retrieve those documents? 19 20 A Can you repeat that again? March, April, May, 2014. 20 21 Q Uh-huh. If I knew I was looking for DRN release 21 Q Might you mean 2015? This suit was not filed notes, or if I wanted tip sheets, and perhaps TIP until 2014. 22 22 23 would be that, just spitballing, that would be the 23 A I may mean 2015. code that was used, could you run that TIP query **24** Q I'll want to get ahold of your psychics on staff.

Page 69

in the database and retrieve all the tip sheets

24

25

25 A Yes. Thank you. 2015. I just need a note.

Page 73 Page 75 1 Q And as part of this process, you said we, but who 1 A There are different Outlook policies for what would be contacted? Were you specifically talking Outlook can do on a personal machine with sent 2 2 about the people engaged in document retention items, so depending what the individual set on 3 3 would receive that litigation hold e-mail? 4 4 that policy. But Epic, as a general rule, the MR. CARLE: Objection. Leading. sent items would be backed up as well. 5 6 A Can you rephrase that? Sorry. O And would the same be the case for deleted items? **7** Q Who got this e-mail in March 2015? 7 A Yes. 8 A I did. Q Okay. And so provided that your e-mail inbox had 8 9 Q Just you? not grown so large you needed to permanently 9 10 A I don't remember if there were others who were delete, would the file that's backed up when an 10 11 part of the -- that e-mail. 11 employee departs contain all -- not only the inbox 12 Q Do you know if tech writers in this case received but sent and deleted items as well? 12 a litigation hold e-mail? 13 A Not necessarily. 14 A Some -- yes. I know some tech writers received a 14 Q Okay. Why not? litigation hold. 15 A An individual, even if they're not at the limit 15 16 Q When you say some, do you mean not all did, or for their mailbox size, could choose to purge 16 you're -- just clarify, please, what you mean. e-mails, and therefore would no longer be in their 17 17 A I do not know if it was all. 18 deleted items folder. Q Okay. Do you know if the team leads of tech Q And Epic doesn't have a policy about whether --19 19 writers received a litigation hold e-mail? what employees should do in that respect in terms 20 20 21 A I do not know. of deleting or fully purging e-mails? 21 22 Q Okay. 22 A Correct. Epic does not have a policy. 23 Q Okay. But if an employee -- strike that. All right. We've kind of touched on e-mails, 23 but I'm going to move on to topics 17 and 18 and All right. What procedure would be used in 24 24 25 just ask some more specific questions about Epic's 25 order to search -- well, I'll back up. Page 74 Page 76 e-mail systems. Would it be possible for Epic to search 1 1 inboxes for specific search terms, the inboxes of So does every Epic employee have a company 2 2 e-mail account? 3 current Epic employees? 3 4 A I don't like absolutes. 4 A Yes. 5 O I'll take that back. It was too broad. Yes. Q And could that search be run across multiple Do all tech writers have a company e-mail e-mail holders, or would you have to do it one at 6 6 7 account? 7 a time? 8 A Yes. A It could be run across multiple e-mail holders. **9** Q Do the team leads or people who supervise tech **9** Q Okay. What would be the procedure for running a writers have Epic e-mail accounts? search of specific search terms, for current? 10 10 11 A Yes. 11 A There's a process where it has to come from, either an executive or legal, to do the search 12 Q Okay. And what e-mail system does Epic use? 12 13 A Microsoft Exchange. 13 terms. Our Exchange admins have an Exchange tool 14 O And we discussed that there's a maximum size for for eDiscovery. So once the search terms are 14 determined, they enter it in a Boolean form and 15 the file -- for the -- the size of an e-mail box. 15 correct, eight gigabytes, I think you said? press search, I guess. 16 16 17 A Correct. Q And what factors determine how long that search 17 O And so in terms of data retention, would these -would take? 18 18 would e-mail inboxes be subject to the nightly, 19 A The search terms themselves, if you use a common 19 20 weekly, and monthly backups because they're on the word, it's going to take obviously a lot longer, 20

22 A Yes.23 Q Okay

21

server?

23 Q Okay. And would that include all sent e-mails;

are they also -- would they also be backed up

pursuant to that policy?

Q Does the process for performing searches of e-mail
 boxes differ at all for boxes you've had to
 restore because they belonged to a former

the date range that you are using.

the number of people across whom we're searching,

21

I do not remember everybody's names. Let me see if I remember anybody's names. Karen Campbell was one. Jacob Louis was one. I don't remember the others' names. Do you recall how many? Fewer than ten. And that entire search took a few hours to complete, you said?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A Q A Q A	a, we call it an INI. It's short for a database.  So DRN for release notes.  So would there be an INI list, then, to tell me all of the, like DRN, the INI used to run that query?  Yes. There is a list of all the INIs.  And how would I get that list? Is it on the wiki?  Where would that list be found?  INI is such an embedded thing within Epic. It would not be hard to produce a list of INIs needed. You should probably strike needed, but a list of INIs.  What does INI stand for?  No clue.  Lost to the sands of time.  From what I remember, it's just short for initials.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q A Q A Q	From what I recall, they were small. What individuals' boxes did you search?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A Q A Q A Q A	a, we call it an INI. It's short for a database.  So DRN for release notes.  So would there be an INI list, then, to tell me all of the, like DRN, the INI used to run that query?  Yes. There is a list of all the INIs.  And how would I get that list? Is it on the wiki?  Where would that list be found?  INI is such an embedded thing within Epic. It would not be hard to produce a list of INIs needed. You should probably strike needed, but a list of INIs.  What does INI stand for?  No clue.  Lost to the sands of time.  From what I remember, it's just short for initials.  Okay.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q A Q A	From what I recall, they were small. What individuals' boxes did you search?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A Q A Q A Q A	a, we call it an INI. It's short for a database.  So DRN for release notes.  So would there be an INI list, then, to tell me all of the, like DRN, the INI used to run that query?  Yes. There is a list of all the INIs.  And how would I get that list? Is it on the wiki?  Where would that list be found?  INI is such an embedded thing within Epic. It would not be hard to produce a list of INIs needed. You should probably strike needed, but a list of INIs.  What does INI stand for?  No clue.  Lost to the sands of time.  From what I remember, it's just short for initials.  Okay.  So we had an initial for the word initial.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q A Q A Q	From what I recall, they were small. What individuals' boxes did you search?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A Q A Q A Q A	a, we call it an INI. It's short for a database.  So DRN for release notes.  So would there be an INI list, then, to tell me all of the, like DRN, the INI used to run that query?  Yes. There is a list of all the INIs.  And how would I get that list? Is it on the wiki?  Where would that list be found?  INI is such an embedded thing within Epic. It would not be hard to produce a list of INIs needed. You should probably strike needed, but a list of INIs.  What does INI stand for?  No clue.  Lost to the sands of time.  From what I remember, it's just short for initials.  Okay.  So we had an initial for the word initial.  But if I asked for a list of INIs, Epic would know
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q A Q A Q	From what I recall, they were small. What individuals' boxes did you search?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A Q A Q A Q A	a, we call it an INI. It's short for a database.  So DRN for release notes.  So would there be an INI list, then, to tell me all of the, like DRN, the INI used to run that query?  Yes. There is a list of all the INIs.  And how would I get that list? Is it on the wiki?  Where would that list be found?  INI is such an embedded thing within Epic. It would not be hard to produce a list of INIs needed. You should probably strike needed, but a list of INIs.  What does INI stand for?  No clue.  Lost to the sands of time.  From what I remember, it's just short for initials.  Okay.  So we had an initial for the word initial.  But if I asked for a list of INIs, Epic would know what that means, or someone within Epic would know
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q A Q A Q	From what I recall, they were small. Long, D., v. Epic Systems Corporation	Videotape 30(b)(6) Deposition of Brian W. Benz February 25, 2016
Page 81	Page 83
document we didn't talk about are exit interviews	1 MS. MADDEN: Okay. That's all.
done with a departing employee. Do you know	2 Thank you.
where in what system those would be stored?	3 THE WITNESS: Okay. Thank you.
4 A Yes.	4 MR. CARLE: I have no questions.
5 Q What system?	5 Thank you.
6 A It's a database. So Insight is the front-end.	6 We'll reserve signature.
<ul><li>7 It's a SQL database.</li><li>8 Q So does that mean you could query the database to</li></ul>	7 (Adjourning at 11:20 a.m.)
8 Q So does that mean you could query the database to pull all, for example, exit interviews for tech	8 9
10 writers?	10
11 A We could pull that data. Yes.	11
12 Q How long would it take to do that?	12
13 A I don't know how many departed tech writers there	13
are. It would a day or two process.	14
15 Q Okay. And how long is information kept in the	15
16 database?	16
17 A It goes back before the start of this litigation.	17
<b>18</b> Q Okay. So there would be no need to go to backups	18
in order to get exit interviews for people who	19
fall within the time period of this litigation?	20
21 A Correct.	21
22 Q And also on the topic of HR, would the college	22
major be a kind of information that would be	23
stored in any of Epic's HR systems?	24
25 A Yes.	25
Page 82	Page 84
1 Q What system would that be stored in?	1 STATE OF WISCONSIN )
2 A It would be part of the hiring process. So Taleo	2 COUNTY OF DANE )
or Avature.	3 I, SARAH FINLEY PELLETTER, a Registered
4 Q So it would not be found in Insight?	4 Professional Reporter and Notary Public duly
5 A Not to my knowledge.	5 commissioned and qualified in and for the State of
6 Q Could Avature be queried to pull a list of college	6 Wisconsin, do hereby certify that pursuant to notice,
7 majors for people who are tech writers?	7 there came before me on the 25th day of
8 A Repeat the question.	8 February 2016, at 9:01 in the forenoon, at the
9 Q Sure. Well, is Avature, is that another SQL	9 offices of Hawks Quindel, S.C., Attorneys at Law,
database or a database that you could run queries	10 222 West Washington Avenue, Suite 450, in the City of
to pull reports from?	11 Madison, County of Dane, and State of Wisconsin, the
12 A Yes.	12 following named person, to wit: BRIAN W. BENZ, who
13 Q Could such a query be the college majors of people	13 was by me duly sworn to testify to the truth and
applying for a specific position?	14 nothing but the truth of his knowledge touching and
15 A To the best of my knowledge, yes.	15 concerning the matters in controversy in this cause;
16 Q Okay. And would you be able to run a report like that for data in Taleo?	16 that he was thereupon carefully examined upon his 17 oath and his examination reduced to typewriting with
18 A As discussed before, Taleo is that Oracle database	
15 11 115 discussed before, Taico is that Oracle database	18 computer-aided transcription; that the deposition is

that we don't fully know the structure of. So 19 20 with some time, we could figure out where the

major is. 21

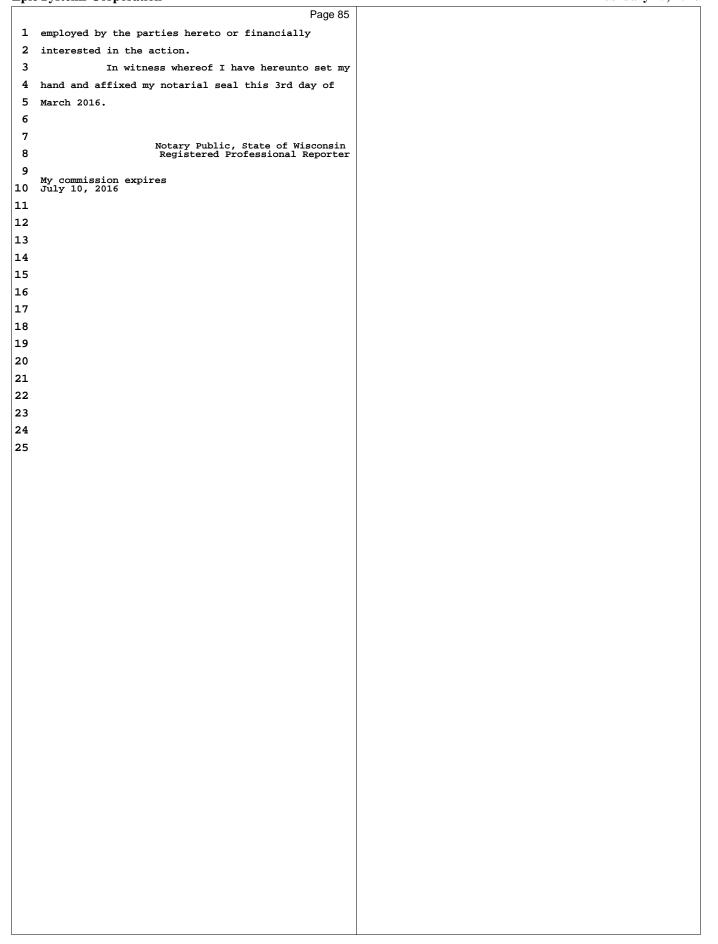

22 Q Okay. Do you have an estimate of how much time

that would take?

24 A For finding major, should be done in a day.

25 Q Okay.

a true record of the testimony given by the witness; and that reading and signing was not waived. 21 I further certify that I am neither attorney or counsel for, nor related to or employed by any of the parties to the action in which this deposition is taken and further that I am not a relative or employee of any attorney or counsel
